The HKIAP education activities in 2017 began with the special evening lecture on breast pathology by Dr Stuart Schnitt on 18 January. We will organise two scientific meetings in 2017. The registration fees are listed in the registration form. Several evening lectures are to be held this year which are free (both in charge and registration) and open to all HKIAP Members. The coming one is in March. We look forward to your participation.

In response to feedbacks on the poor image quality in handouts, the paper course books will be in coloured prints if the speakers provide us with coloured images. Please indicate your preference of course material (paper handouts or CD-ROM) in the registration form. Additional course materials are for sale at the registration counter.

This is a comprehensive course of cytopathology. The lecture topics include diagnostic cytopathology in almost all organ systems and latest advances in molecular and other ancillary studies in cytology specimens.

Abstracts for Oral Presentation and Poster Presentation

We welcome abstract presentation in all areas of anatomical pathology in both Spring and Fall Scientific Meetings. The oral presentation abstracts provide researchers the opportunity to present for 10 minutes. The poster presentation abstracts allow attendees to display a poster for two days during each meeting. The presenting authors must register for the meeting. Please send the abstract of not more than 400 words by email to the HKIAP Secretariat at HKIAPsecretariat@gmail.com

Deadline for submission is 21 days prior to the first day of the meeting. The authors will be informed of the adjudication 14 days before the meeting.
