We will have a busy schedule in HKIAP education activities in 2018. Apart from the two conventional scientific meetings, we will also organize or co-organize several seminars/courses which are free for all HKIAP Members. Special rates on Spring and Fall Scientific Meetings are available for local Members. We look forward to your participation.

### 2018 Spring Scientific Meeting

Date: 14 – 15 April 2018

Venue: Shaw Auditorium, Postgraduate Education Centre,  
Prince of Wales Hospital, Shatin

Speaker: **Dr John Chan**, Queen Elizabeth Hospital, HK

### 101 DIAGNOSTIC CLUES IN SURGICAL PATHOLOGY

This will be a comprehensive 2-day advanced course in diagnostic histopathology. Dr John Chan will guide the audience, using his vast experience, through the diagnostic process of disease entities in major organ systems, particularly in but not limited to general surgical pathology, lymphoid, head and neck, endocrine and soft tissue lesions. Dr Chan, in his unparalleled witty presentations, will demonstrate the approach to surgical pathology diagnosis of difficult cases and how to utilize clinical or morphologic clues (albeit small and “innocent” sometimes) to aid in diagnosis, and more importantly, to avoid pitfalls. This course will be of great value to diagnostic pathologists, from those in training to those with long experience.
