Your participation made a great success of the Spring Scientific Meeting 2013! To keep up with the challenging developments in diagnostic pathology, the HKIAP is organising more local education events. With the efforts of the Council, the cost of these meetings were kept very low, thus allowing us to open short courses free to our members. There are two Histopathology Short Courses, to be held in August and December. A third attractive free local event is the IAP/ADPC Neuropathology Course in September. Please find the details in this issue.

### 2013 Histopathology Short Course I

We are honoured to have Prof. Jennifer L. Hunt who is the Chair of the Department of Pathology and Laboratory Services in the College of Medicine at the University of Arkansas for Medical Sciences, Little Rock, USA as our speaker. She is well recognized for her expertise in head and neck, endocrine, and molecular anatomic pathology. Her last lecture in Hong Kong in 2008 received excellent acclaim.

Prof. Hunt will give a lecture entitled *Interface of Benign and Malignant Head and Neck Lesions*, the same current short course she is doing at the USCAP. Participation in this event saves you from travelling across the Pacific.

The course is aimed for general pathologists who have to deal with neuropathology materials, both neoplastic and non-neoplastic.
