Ready. Steady.

Providing accurate results to the operating room as quickly as possible is essential in maintaining excellent patient care. NX Series cryostats from EpreDia are designed to get the job done.

HM525 NX Cryostat from EpreDia™

A high-performance routine cryostat with intuitive software and touchscreen for simple, efficient operation. The HM525 NX cryostat offers reliability and advanced ergonomics.

CryoStar™ NX50 Cryostat from EpreDia

Designed to accommodate the needs of routine clinical laboratories, the NX50 manual cryostat offers a form-fitting design with optional height adjustment, cold disinfection, and vacutome, allowing users to customize their sectioning experience.

CryoStar NX70 Cryostat from EpreDia

Tailored to the needs of both research and clinical laboratories, the NX70 features integrated height controls and motorized sectioning. Freeze and section tissue samples more efficiently with improved stability and individually controlled temperature settings on both the object specimen holder and blade carrier.
